

NEW ABLOY® PROTEC² CLIQ KEY AND CYLINDER

The benefits of the new PROTEC² CLIQ key can be seen in everyday life

- 1) Increase the size and the capacity
 - Larger memory capacity enables to store more audit trails
 - 3500 locks or lock groups can be programmed in the key
- 2) Flexible time related access rights
 - The battery that allows clock and time features last up to ten years.
- 3) User-friendly
 - LED indication on both sides
 - New modern design
 - Comfortable to use
- 4) Fast opening
 - The new technology allows swift and straight away access
- 5) Space for RFID tag
 - The space reserved is inside the key.
- 6) Investment to the future
 - The new platform enables us continuously develop new exciting features.

NEW ABLOY PROTEC² CLIQ cylinder

- New technology is also in the cylinder
- Improved contacts
- More durable and robust construction
- Electronic and mechanical reset for increased security

**Both the key and the cylinder available
with new technology in February 2015!**
