

Outside Access Devices

Strand Antipanic outside access devices

Description

- Optional outside access device (OAD) with level handle or knob available for use with modular and touch bar ranges.

Application

- Where outside access is required two threaded screws allow the centre mechanism of the device and outside access to be bolted securely together
- Standard spindle suitable for doors up to 100mm thick
- OAD comes complete with a standard 40mm half euro cylinder
- In addition to the standard type of OAD a key retaining version is available (key can only be withdrawn in the locked position)
- Keyed alike and high security options available to order.
